Please find below the draft email to [REDACTED] I was unsure who the best contacts would be in that region, however.

Subject: Upcoming visit to a tire crumb processing facility in [REDACTED]

Hi [REDACTED] contact)),

In support of the multi-agency research action plan on the use of tire crumb on playing fields and playgrounds (see: www.epa.gov/tirecrumb), on June 10, a small group of EPA staff and managers from ORCR and ORD, and the Centers for Disease Control, will be visiting a tire processing facility-- the [REDACTED] Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]

[REDACTED] Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]

The purpose of the visit is to observe and learn about the tire crumb manufacturing process and to provide an opportunity for the study researchers to ask questions about the source and variability of tires, processing technologies, and other variability in tire crumb manufacturing.

If you anyone in your office would like to join us on this informative tour of the facility, please let us know by COB on Friday, June 3.

We'd be happy talk with you more if you have any questions.

Thank you,

Nicole Villamizar

Yes! Thank you for remembering. That came up in the general with Barnes as well.

Hi Nicole,

I just remembered an item that I left off the tire crumb list yesterday—do we need an email to send to our colleagues in [REDACTED] to let them know we'll be in the region and invite someone there to join the tour? Let me know and I'll modify the email we sent to [REDACTED] Ex. 6 Personal Privacy (PP)
